

Epwin Group

Gender Pay Gap

Report 2022

Epwin Group Plc

2022 GENDER PAY GAP REPORT

All UK companies with 250 or more employees on 5 April 2022 must report annually details of their gender pay and bonus gap.

Epwin Group is publishing its 2022 annual gender pay gap report for its legal entity that employs more than 250 people.

We have taken the opportunity to voluntarily publish a gender pay gap report for Epwin Group Plc as a whole.

All of the Group's employees are UK based and principally employed by one of two legal entities. The larger, Specialist Building Products Limited, is in scope as it employs more than 250 people in the UK.

Epwin operates in the manufacturing sector, which historically has a significantly higher proportion of male employees, 84.35% of Epwin Group employees are male. Having a greater awareness of the Gender Pay information enables us to take a holistic view of our Group and we continue to monitor our gender pay gap, focusing on ways to attract, retain and develop our diverse workforce.

Having compared previous years data and the 2022 report, we are confident that we pay men and women equally for work of equal value, and that any differences from previous years are not an indication there is differential due to gender.

Epwin continues to be committed to best corporate practices and ethical values and aims to put in place measures to create a diverse and inclusive place to work across all levels and locations of the business.

We confirm that Epwin Group Plc's gender pay gap calculations are accurate and meet the requirements of the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

Jonathan Bednall
